

Chemdawg Auto

The Perfect Fuel-Flavored Power House!

- **Overpowering high!** You'll instantly get blasted into another planet, recommended for those with a high tolerance.
- **Smell the fumes.** A boosted and refined mixture of gas, fuel and diesel that pack a punch!
- **Discreet.** Growing up to 90cm, the compact structure is ideal for stealth growers.
- **Super tough.** This plant can easily withstand colder climates and is highly resilient to pests.
- **Easy to grow.** Ideal strain for those new to autoflowers.
- **Boosted and refined.** An auto version that's even stronger than the original!

For those who love pungent, gassy, fuel terps with a knock out effect. A tough, compact plant with up to 20% THC Original Auto Chemdawg is an easy to grow strain that is a good starting point for anyone new to growing autoflowering genetics. Due to her potency, she is a wise choice for smokers with a high tolerance that enjoy a narcotic high and are lovers of overpowering flavors. She is very easy to trim and a fast grower meaning anyone who requires a quick-growing strain will obtain excellent results. This strain is an absolute must for extractors and hash makers looking for something special.

Bud description

Original Auto Chemdawg will produce stunning compact, thick buds that have a chunky pointy appearance. The calyxes will be small and packed closely together with an abundance of pistils covering the buds. Her resin profile is extremely impressive and the fragrance she releases is astoundingly dank.

Smoke report

If you want nothing but potency, then this is the strain for you. Smoking Original Auto Chemdawg will instantly blast you into another world followed by heavy eyes, arms, and legs. The ultimate therapy for taking the edge off after a long day, or putting your feet up for a night in watching a box set at home. A perfect choice for bedtimes and evening and getting into a deep state of undisturbed meditation.

Plant Appearance

She is one of the shorter varieties that we offer, so expect plants to range between 60-90cm final height. Bedroom growers will love this strain as she has such a short and stout structure, that stretching is minimal and she also requires little maintenance or plant training. Outdoors she grows at a fast pace and will produce dense buds that will be ready to harvest within 8-9 weeks, where yields of 350-400gr/m2 can be expected

Grow Tips

Thanks to her low profile, it is advised to grow this strain closely together in a Sea of Green as she grows uniform and homogenous. She is also ideal for growing outdoors and easy to camouflage because of her low squat nature, so is a great choice for outdoors, on a balcony or patio. Be warned that her devastatingly powerful aroma can become very loud meaning if growing outdoors be extra vigilant to her pungent odor. Because of her tough resilience to plant disease and pathogens, she will withstand colder climates with no problems.

Flavor

A fusion of chemicals that range between gassy, petroleum with earthy essences. Her taste is magnificent, unique, and long-lasting meaning she is a terpene powerhouse and packs flavor for days. A mix of highly desirable flavors that are a concoction of earthy, fuel, gas with a chemical kush aftertaste that you will fall in love with.
