

# Frostbanger Auto

A brand new trichome powerhouse.

- **Stunning frosty appearance.** Next-level frosty trichomes so thick you can barely see the bud underneath.
- **Monstrous potency.** A mind-melting 29.5% THC that hits hard and fast.
- **Heavy-hitting, full-body relaxation.** Perfect for evening use or relaxing after a long day.
- **Smooth, sweet creamy flavor.** Velvety soft and super sweet with a creamy fruit taste.
- **A potent eye-candy avalanche.** This next-gen, sparkly autoflower glistens like it was dipped in fresh powder.

Frostbanger auto is a super-potent, super-frosty, heavyweight indica-dominant autoflower with an average 29.5% THC. She stays compact, kicks into flower by week four, and quickly produces a moderate harvest of dense, tight, resin-soaked buds that glitter like fresh snow in a sparkling winter wonderland. Created for connoisseurs who crave next-level trichome production, Frostbanger Auto is highly resilient, meaning she's easy-to-grow whether you're new to growing weed or have years of experience. Her compact structure is perfect for tight indoor spaces, where she'll reach heights of 70-120cm. Just keep in mind, this strain's dank, pungent odor is super strong—meaning a carbon filter is a must to mask the aroma in any grow room and she'll make her presence known when grown outside. You can expect a healthy harvest from this trichome-studded beauty that's known to produce 450-550 gr/m<sup>2</sup> inside and 60-200 gr/plant outdoors. Smoking Frostbanger's glistening flowers produces a smooth, ultra-thick vapor that rolls smoothly across the palate with sweet, creamy fruit flavor, delivering a hard-hitting wave of calm relaxation almost immediately that settles deep into the body. This is the ideal strain for evening use, unwinding at the end of the day, or for simply experiencing tranquil physical bliss and an unbound calmful state of mind. Optimized for outrageous trichome production and covered in frost so thick you can hardly see the buds—this is the future of heavy-hitting, high resin autoflowers.
