

Stardawg Auto

The Cream of Chem Crops.

- **Award-winning!** Enjoy this precious award-winning hybrid bred with original prized Cali genetics.
- **The best of both worlds.** Offers a balanced mix of Indica and Sativa effects, an well-rounded experience for all types of consumers.
- **Offensively loud.** Reeks of a unique blend of pine, diesel, and bitter undertones, extremely loud.
- **Reach the stars.** Expect this plant to grow around 120cm, with a tall main cola and side branches that can (almost) reach the stars.
- **Top-shelf buds.** The abundance of fat buds oozing with resin will make for exceptional extractions, hands down.

The prized Chemdawg #4 X Tres Dawg cut collides with FastBuds unique autoflowering genetics to give rise to a new breed of Stardawg Auto. This robust Sativa-Indica hybrid is an all-star when it comes to growth, taste, and behold a tasty 22% THC, so novices may want to watch out.

Bud description

Hall of fame nugs. Boasting a clear green color blended with coats of crystals and orange pistils, oozing with resin that'll stick to your fingers as you crumble it into your grinder. Outstanding bud for extractions.

Smoke report

Eloquent High. Bringing you the best of both worlds, a mixture of a Sativa head high and with an Indica body rush makes it an all-round experience when smoked. Novices will want to be careful, this strain can be quite overwhelming for the new smokers.

Plant Appearance

A robust plant that can grow up to 1.2m in height. Growers can expect a main cola to shoot up, accompanied by widening side branches. A good internodal spacing allowing packed clusters of buds to produce girthy colas.

Grow tips

Stardawg is ideal for novices and pros alike. She'll willingly put up with training methods and will be forgiving of the novice's mistake. Some SOG or LST will be welcome for the more experienced growers. Expect to harvest around week 9 or 10 and make sure to start flushing a couple of weeks before you do so. Growers may want to invest in a carbon filter because she can be quite strong smelling.

Taste

Smoking Loud. This strain brings strong pine and diesel-like tastes. A sort of bitter, earthy nuances submerges your taste buds, that combined with the strong piney flavors, really gives it a full yet unique spectrum of tastes.
